Juvéderm® Voluma™

Juvederm (VOLUMA and VOLBELLA) is the #1 hyaluronic acid (HA) dermal filler in the world. Voluma is the foundation for restoring structure in the face. HA is a naturally occurring substance which delivers volume and structure, positively affecting the lower face with a gentle uplift. Results are seen immediately though it can take 2 – 4 weeks for Voluma to fully settle in. Voluma has been shown to slow the aging process by supporting the cheek structure.

Voluma for Midface & Cheekbone

30-40 Year-Old Patient

Voluma injected on the cheek point gives the illusion of a more defined bone structure. Think "Top Model"!

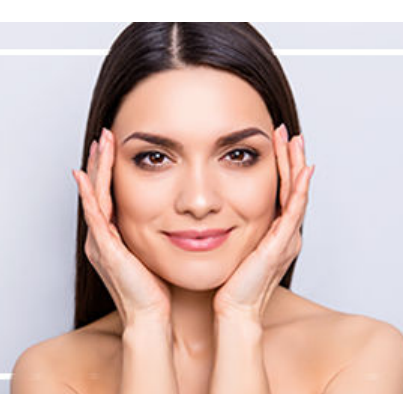

Mature Patient

Voluma injected on the round of the cheek immediately corrects age related volume loss. Loss of cheek volume/firmness causes drooping which results in more pronounced nasal labial lines.

Volbella

Used to achieve a fuller lip and to soften the appearance of vertical lip lines (lipstick bleed lines).

Botox Offer

Purchase 30 units of BOTOX at \$14 per unit and receive an additional 15 units at no charge!

*May not be combined with any other BOTOX promotion

*Alle points will be awarded on paid Botox (30 units) at time of treatment

*Complimentary BOTOX may not be gifted to another person

*Offer valid during Spring Open House only, claim between March 1 and March 9.
