INTERNATIONAL
NURSE
DAY

A nurse is a patient, kind, caring, and trained professional who focuses on the needs of others.

Nurses Day is observed annually on May 6. On this day, we raise awareness of all nurse contributions and commitments and acknowledge the vital role nurses play in society. I have an excellent team of nurses who go above and beyond to care for my patients.

I am honored to work with Barbara, Gail, and Meredith in addition to the nurses at Trails Edge Surgery Center, Doctor's Outpatient Surgery Center, and A Nursing Connection.
