

New Year, New Skin!

Achieving Your
Skincare Resolutions
for Lasting Radiance

New Year is a great time to set and stick to your skin care resolutions. Developing a well rounded routine can fine tune your appearance; a little bit of effort now will pay off by the end of the year.

- Set aside a non-negotiable amount of time each day to cleanse your face. A twice daily cleansing routine should be your priority. Cleanse your face in the morning to remove impurities that were brought to the surface while you slept, and cleanse your face in the evening to remove makeup and other contaminants you may have been exposed to throughout the day.
- Use skin care products that were developed to advance the science of skin rejuvenation through research, science, and innovation. At Prysi Cosmetic Surgery we are proud of to partner with and exclusively promote SkinMedica products.
- No matter what time of year it may be, the sun’s rays can damage your exposed skin with UVA and UVB. Over time this damage can lead to sunspots, freckling, an aged look, and other blemishes. Apply sunscreen every day, and wear a wide brimmed hat and sunglasses when outdoors.
- Consider a series of professional skin care treatments. Diamond Glow uses 3 in 1 technology to improve the overall tone and texture of your skin. The diamond-coated microcrystals exfoliate and cleanse the skin, removing dead skin cells, dirt and makeup. This allows for better absorption of serums or moisturizers on top of the treatment.

Wishing you a Happy New Year. May it be filled with new adventures and good fortune!

FEATURED PRODUCT

Latisse®
(bimatoprost ophthalmic solution) 0.03%

- Natural look
- No damage from extensions
- Medical grade FDA approved
