

PRODUCT OF THE MONTH

HA5 Rejuvenating Hydrator 2oz

- Provides immediate smoothing in the appearance of fine lines and wrinkles and supports the skin's natural ability to retain moisture resulting in radiant, rejuvenated tone and texture.
- Appropriate for all skin types.

WHAT IS DIAMOND GLOW?

Diamond Glow is a microdermabrasion treatment that aims to reveal radiant, healthy skin cells and treat them with one of SkinMedica®'s proinfusion serums. It is a painless, non-invasive technique that can achieve significant improvement in skin texture, tone, and wrinkles. The procedure is customized to match each person's unique goals and skin type and is safe for all colors of skin.

The Diamond Glow Process

Diamond Glow treatments occur in three steps, with both the customizable diamond tips and SkinMedica® serums tailored to optimize the treatment and address your unique needs.

1. Exfoliate
2. Extract
3. Infuse

Learn how a custom Diamond Glow treatment plan can help you get the beautiful skin you want in simple, quick sessions with no downtime by scheduling a consultation with Gail today!

Administrative Professional Day

To celebrate Administrative Professionals Day, we want to recognize our fantastic administrative team members, Raelynn and Jennifer! Thank you both for bringing your talents and dedication to our team—we're so grateful for you!

More than 60 men took part in the 2024 Take A Stand on Tuesday, March 5, 2024, distributing more than 4,500 informational door hangers in Immokalee and Naples.
