Introducing SkinCeuticals

At Prysi Cosmetic Surgery we are constantly researching products to provide our best recommendations for quality skin care. We are proud to partner with SkinCeuticals to complement the SkinMedica products we currently offer. Call the office today to speak with one of our staff members about a skin care routine that best fits the needs of your skin. These products are available for purchase in the office only at this time.

C E Ferulic

C E Ferulic is a vitamin C serum made with ingredients to reduce the visible signs of aging and brighten the skin. Results can be seen for up to 72 hours after application!

HA Intensifier

HA Intensifier is the next generation in corrective serums, proven to instantly plump skin and improve radiance. It provides a 24-hour hydration boost, among many other significant bonuses in overall skin health.

Triple Lipid Restore

Triple Lipid Restore is an anti-aging cream that replenishes lost lipids, reinforces the skin's barrier, and improves overall dryness. It minimizes the appearance of pores and improves fullness, smoothness, and radiance.

Check out our website to learn more about these products, or give us a call to purchase from our team directly through the office!

Autumn Skin Care Recommendations

Florida's intense sun and humidity can lead to increased oil production, clogged pores, sunburn, and accelerated skin aging. Without the right protection and treatments, you may notice more breakouts, dark spots, and dullness. Creating a skincare routine to maintain healthy, glowing skin is essential to looking and feeling your best this summer. Learn more about a series of in-office medical grade chemical skin treatments to improve the tone and texture of your skin. Treatments for the face, hands, neck and décolletage are available.
